

JBC NBC260

Bent Needles & Cups for T260

These accessories allows the **adjustment to weight and size of any type of component.**

The suction cups can be adjusted to the needles in order to make the placement of SMD to different sizes on board easier.

When you assemble the suction cup with the needle, you should avoid the needle to stick out of the lower part.

These needles are supplied with JNASE High-Precision Hot Air Station and work with T260 Pick & Place

NBC260 include:

(x2) Metallic Bent needles 30G 60° Ø0.159

(x2) Metallic Bent needles 25G 60° Ø0.26

(x2) Metallic Bent needles 20G 60° Ø0.60

(x2) Suction Cups 4.3 X0.5
